

subdomain

top-level domain

www.example.tor

The diagram illustrates the hierarchical structure of the domain 'www.example.tor'. It consists of three colored rectangular boxes: a red box containing 'www.', a green box containing 'example.', and a teal box containing 'tor'. Arrows indicate the relationship between these parts and their respective labels: an arrow points from 'subdomain' to the red box, an arrow points from 'top-level domain' to the teal box, and an arrow points from 'second level domain' to the green box.

second level domain
